## Hollow Metal Submittal

APPROVAL

JOB #

### GENERAL NOTES

1. Approval of these shop drawings constitutes an agreement between the contractor and/or the architect that all dimensions and complete listing are correct.
2. Approved hardware schedule and a complete listing of all templates are required when these drawings are approved.
3. No material will be fabricated from these drawings and hardware schedule prior to formal approval and after which no alterations or deletions will be allowed without written consent.
4. These drawings have been prepared for the use of our company only. We will not be responsible for any errors which might effect other trades using these drawings.
5. The contractor is responsible for checking shipments received on job with the bill of lading and inspecting for damage. The contractor must note any shortage on the shippers bill of lading and the contractor is responsible for filing his own freight claim.
6. Our company will not be liable for any rework to our product nor honor any backcharge, unless prior written authorization has been obtained from our office or factory representative.
7. CDM will not be responsible for fit of doors where frames are not set absolutely plumb, square, and level. Spreaders installed on frames are for shipping purposes only.
8. Wherever field joints are required or shown they shall be welded or screw applied on jobsite by others.
9. Hollow metal doors and frames are to be mortised, reinforced, drilled, and tapped for all mortised hardware. Doors and frames are to be reinforced only for all surface applied hardware. Drilling and tapping for surface applied hardware are to be done by others. All holes 1/2" or less in diameter are to be field drilled by others.
10. CDM will not furnish screws, bolts or other fastenings for attaching our materials to other trades (all rough hardware).
